Nalin Pandita

VJTI, Mumbai, Maharastra 400019

6006190650 npandita_b21@el.vjti.ac.in linkedin.com/in/nalin-pandita github.com/nalinpandita

Education

Veermata Jijabai Technological Institute (VJTI) **2021 – 2025**
Bachelor of Technology (B.Tech) in Electronics Engineering *Mumbai*

Vishwa Bharati Public School, Jammu **2019 – 2021**
Central Board Of Secondary Education *Percentage- 85.4 %*

KC International School, Jammu **2008 – 2019**
Central Board Of Secondary Education *Percentage- 95.0 %*

Experience/Internships

CDRC VJTI | *Data Analytics Intern* **June 2024 – July 2024**
Time Series Analysis *Mumbai*

- Developed and integrated **3** statistical models — AutoRegressive **(AR)**, Moving Average **(MA)** and AutoRegressive Integrated Moving Average **(ARIMA)** for **Time Series Forecasting**, obtaining minimum **MSE** of **38.4**.
- Employed **Python** and its **Libraries** for Data cleaning, Preprocessing, Analysis, Visualizing and unit root testing.
- Researched the strengths and limitations of advanced deep learning models like Long Short-Term Memory **(LSTM)** and Recurrent Neural Networks **(RNN)** for sequential data applications like stock price and climate forecasting.

Projects

Stock Price Forecast Using Time Series Analysis | *Python 3, Flask, Libraries, RNN's.* **July 2024**

- Developed and Designed a **Flask** web app to visualize closing stock prices and also provide trading suggestions.
- Implemented **RNNs (LSTM)** and **VAR** to forecast **3** different stock prices: **ONGC, Tata Motors, Microsoft**.
- Leveraged libraries to perform **Feature Engineering**, **Analysis**, and **model Training**, obtaining a **MSE** of **67**.

AI RAG Assistant using LangChain | *Python 3, LLM's, Libraries, NLP.* **April 2025**

- Built an RAG assistant using **LangChain**, **IBM Watsonx LLM** and **Embeddings** to analyze large documents.
- Applied Text **chunking**, **embeddings** and **ChromaDB** to enable document segmentation and vector storage.
- Implemented query-answering pipeline using **RAG** supports natural language inputs and enables Fast Response.

Fraudulent Detection | *Python, Libraries, Machine Learning, Google Collab.* **September 2024**

- Utilized and compared **3** machine learning Algorithms **XG Boost, Random Forest & Logistic Regression**.
- Performed **Feature Engineering** on a vast dataset of **280K** rows, providing inclusive data for model training.
- Applied **SMOTE** to handle imbalance dataset and attained a **F1** score of **0.85** in detecting fraudalent activities.

Technical Skills and Interests

Languages: Python 3, SQL, HTML, CSS
Tools : VS Code, Jupyter notebook, Google Collab, PowerBi, Excel, Visio, Gradio
Libraries and Framework: Pandas, Numpy, Matplotlib, Sckit-Learn, TensorFlow, Transformers, LangChain,NLTK, Flask
Skills : Data Analysis, Machine Learning, LSTM, RNN, CNN, Transformers, NLP, LLM's, Fine-Tuning LLM, GenerativeAI

Leadership / Extracurricular

Internation Rover Challenge | *Coimbatore, Tamil Nadu* **February 2024**

* As part of a **20**-member multidisciplinary team, I looked over: Data analysis, Sensor Integration and Validation.
* Achieved an impressive rank of **16** among **500** competing teams, demonstrating our technical and collaborative skills.

Vishwa: Space and astronomy Club | *VJTI, Mumbai* **2024 - 2025**

* contributed to the design and development of a Mars rover, focusing on the electronics subsystem and **PCB design**.
* Worked on softwares like **EasyEda, Proteus, Keil 5** to design PCBs and optimize and validate electric circuits.

Course/Certifications

· Neural Networks and Deep Learning (DeepLearning.A1 - Coursera).
· Introduction to Python 3 (University of Michigan - Coursera).
· Microsoft's Business Analyst (Microsoft - Coursera) - ongoing.
· Generative A1 Engineering Specilization (IBM - Coursera) - ongoing.
